

Construct each of the indicated graphs.

1. Jim has the following grades on 5 tests in his class:

90, 83, 72, 29, 100

Make a stem and leaf plot of these grades.

2. John's income for five consecutive years are as follows:

2004: \$23,000

2005: \$21,000

2006: \$25,000

2007: \$19,500

2008: \$22,000

Make a line plot (line graph) for this data

Charts and Graphs 2 of 2 – Making

3. For a class the hair colors of the students are as follows:

Blonde Hair:	8 students
Brown Hair:	4 students
Black Hair:	7 students
Bald:	1 student

Make a horizontal bar graph and a vertical bar graph for this data.

4. In a school, the absences by grade are as follows:

9 th grade:	37%
10 th grade:	21%
11 th grade:	30%
12 th grade:	12%

Make a pie chart of this data.
